Profile Summary

A passionate Front-end Developer with a background in Computer Science. I specialize in building interactive web applications using React, Javascript, TailwindCSS, and Django. I enjoy building projects and continuously improving my skills in both frontend and backend development.

Skills

Frontend: React, JavaScript, TailwindCSS, Framer Motion, Bootstrap, HTML5, CSS3

Backend: Python, Django, MySQL, RESTapi, Django-Rest-Framework

DevOps/Tools: Git/Github, Docker, Vercel, Render, AWS ECS/EC2, VScode

Projects

Portfolio

[Visit Portfolio](#)

Frontend and UI/UX | Tools : Figma, Javascript, Html, Css, Github

- Designed and developed a fully responsive, modern portfolio website using HTML, CSS, JavaScript, and custom animations to showcase projects and technical skills.
- Implemented scroll-triggered animations and text effects using pure CSS and JavaScript to enhance visual engagement.
- Applied clean, accessible UI design principles with a consistent layout and modular code structure.
- Integrated CSS Grid and Flexbox to manage layout responsiveness across desktop, tablet, and mobile devices.

Creative Scrapyard(e-commerce)

[Creative-Scrapyard](#)

Full Sack | Tools : Javascript, Django, Bootstrap, Docker

- Developed a full-stack fully functional e-commerce platform using Django and Bootstrap.
- Implemented responsive design with Bootstrap for seamless user experience across devices, achieving users satisfaction rate.
- Integrated Django for secure back-end functionalities, user authentication, and payment gateways, ensuring 98% secure site.
- Optimized database queries and caching mechanisms, improving page load times by 50%.

Admin Dashboard

[Creative-Scrapyard](#)

Frontend | Tools : React, Python, Django, Javascript, Bootstrap

- Developed a fully functional admin dashboard using React, React Router, and TailwindCSS to manage products, orders, and user data efficiently.
- Built modular components such as data tables, filters, modals, charts, and sidebar navigation for a scalable and maintainable UI.
- Implemented responsive chart visualizations using Recharts to display sales, revenue, and customer analytics.
- Secured admin routes with role-based access control and protected routes using React Router and local storage/session tokens.

Education

Hazara University Mansehra

Bachelor of Science in Computer Science

Mansehra, Kpk

- **Relevant Coursework:** Data Structures and Algorithms (C++/Python), Prob & Stat in CS (Python), Intro to CS II(C++/Python), Linear Algebra w/Computational Applications (Python), Web Development(Javascript)

Core Concepts

Agile Methodologies, Software Development Life Cycle, OOP, Restful API, Debugging, Web Services, Containerization
